Examiner: Rimell, Samuel G.

Commissioner for Patents
Washington, D.C. 20231

SIR:

RESPONSE TO RESTRICTION REQUIREMENT

In a March 5, 2002 Office Action, the Examiner required restriction to one of the following groups:

- I. Claims 1-13, drawn to a method for generating a human readable report, classified in class 705, subclass 2.
- II. Claims 14-25, drawn to a computer system, classified in class 700, subclass 236.

Applicant hereby elects with traverse Group I Claims 1-13 for prosecution in this application. Applicant submits that a search of the method for generating a human readable report would uncover the computer system for generating a human readable report of Group II. Applicant respectfully requests the right to file a divisional application directed to the unelected claims.

A prompt action on the merits is earnestly solicited. The Examiner is invited to telephone the undersigned should he believe this would expedite prosecution of this application. It is believed no fee is required. The Commissioner is authorized to charge any deficiency or credit any overpayment to Deposit Account No. 13-2165.

Respectfully submitted,

Diane Dunn McKay
